

ABOUT US

Our goals are simple –
Facilitate and conduct research and
deliver industry-wide extension.

We aim to support individual farmers
to use science-based,
environmentally sustainable, and
Integrated Pest Management
practices as well as support those
farmers and agencies with
certification compliance/market
access.

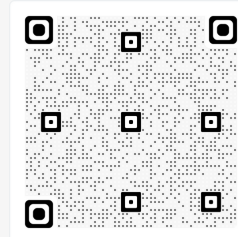

The Pacific
Northwest Berry
World,
Imagined
Differently.

THE NORTHWEST BERRY FOUNDATION

We are a hub of research and
resources for berry growers,
researchers, and industry
organizations across the Pacific
Northwest.

SCAN ME

THE SMALL FRUIT UPDATE

The Small Fruit update is a weekly or biweekly publication (depending on the time of year) featuring regional crop reports, Ag industry news, crop and pest management tips for berries across the Pacific Northwest.

WE PROVIDE

01

ON-FARM , INDUSTRY WIDE RESEARCH

With a strong emphasis of collaborating with a broad range of PNW stakeholders.

02

GROWER RESOURCES

Aimed at connecting growers with accessible content that can be applied to their unique farm situation.

03

INDUSTRY ENGAGEMENT

Connecting growers, researchers, and other industry members, with the most up to date regional reports submitted by growers across the region through our Small Fruit Update & NBF Forum.

04

ENVIRONMENTALLY SOUND FARMING PRACTICES

Such as Integrated Pest Management, beneficial, and wild pollinator monitoring, certification and market compliance requirements, and services specific to Integrated Pest Management planning, pollinator evaluation, or other needs.

Our Vision

To promote a viable, science-based, and environmentally responsible Pacific Northwest berry industry through applied research and extension

Our Mission

To unite, inform, and empower a world-class Pacific Northwest berry sector.

Did you know about our FORUM?

We developed a public forum to open discussion about topics faced in the berry industry, and provide a platform of communication to growers and researchers across the Pacific Northwest.
